

# REPTILIA

REPTILE ZOO & EDUCATION FACILITY

Volunteer With Reptilia!

## Why Not Volunteer with Reptilia?

Volunteering with Reptilia is a fantastic way to experience zoo life first hand and define whether you should pursue an animal based career in the future.

Volunteers are at least 15 years of age, are mature, polite and outgoing, always clean cut with a smile on their face.

The minimum time commitment to be eligible for the program is one shift per week for a minimum of four months.

If you are interested in volunteering, please send a resume and cover letter to [volunteers@reptilia.org](mailto:volunteers@reptilia.org), and join us at our next volunteer orientation session!

### What do Reptilia volunteers do?

Clean! Lots of cleaning! When you first join our team you'll be doing one of the hardest but most important jobs of all, keeping the facility spotless! This means sweeping, mopping, doing dishes, cleaning windows and whatever else it takes. Volunteers that prove themselves to be capable and responsible will have the chance to begin to handle and work with some of our turtles and small lizards as well as having the chance to interact with and educate the public. Volunteers over the age of 18 can progress to working with snakes as well.
